

Unique formulation outperforms other ice melters.

Safer than Salt® Commercial Ice Melter is a proprietary formulation of potassium chloride (a fertilizer), calcium chloride, magnesium chloride and sodium chloride. The product is coated with a liquid magnesium chloride/CMA mixture to help "jump start" the melting process. **Safer than Salt® Commercial Ice Melter will melt more snow and ice than most other products.** It works faster and at temperatures when many other products have stopped working.

The logo for Safer than Salt features the words "Safer" and "Salt" in a stylized, outlined font. The word "than" is written in a smaller, cursive script and is positioned between two circular icons: a snow-capped mountain peak on the left and a snowflake on the right. A registered trademark symbol (®) is located at the top right of the word "Salt".

COMMERCIAL ICE MELTER

Safety rose color coating assures visible, complete coverage and helps protect your bottom line.

Safer than Salt® Commercial Ice Melter is formulated to be seen when used. Most "white" ice melt products disappear into snow and ice. Users tend to over-apply, or worse, under-apply product because they can't see where it lands. Additionally, in today's litigation-driven society, Safer than Salt® Commercial Ice Melter affords users positive proof that an ice melter is in use.

Environmentally Sound

Because Safer than Salt® Commercial Ice Melter melts more effectively than other products, a smaller quantity is needed to remove snow and ice. Consequently, **environmental impact on grounds and vegetation is minimized.**

Choose one or more Packaging Options

Item	UPC Code	Items/Pallet
50# bag	6-74532-25050-1	49 bags
50# box	6-74532-25059-4	40 boxes
100# corrugated drum	6-74532-25100-3	24 drums
