

This product is designed to help reduce corrosion.

This extension of the Safer than Salt® product line, is a proprietary formulation of calcium chloride, magnesium chloride, sodium chloride and CI-56™ a Corrosion Inhibitor. Tests have proven that this product will melt more than twice as much snow and ice as most other melters in the marketplace. It works faster and at temperatures when many other products have stopped working.

Safer than Salt®

PREMIUM ICE MELTER

with CI-56™ a Corrosion Inhibitor

Safety green color coating assures visible, complete coverage and helps protect your bottom line.

Safer than Salt® with CI-56™ a Corrosion Inhibitor, is formulated to be seen when used. Most "white" ice melt products disappear into snow and ice. Users tend to over-apply, or worse, under-apply product because they can't see where it lands. Additionally, in today's litigation-driven society, this product affords users positive proof that an ice melter is in use.

Environmentally Sound

Because Safer than Salt® with CI-56™ a Corrosion Inhibitor, melts more effectively than other products, a smaller quantity is needed to remove snow and ice: Environmental impact on grounds and vegetation is minimized.

Choose one or more Packaging Options

Item	UPC Code	Items/Pallet
50# bag	6-74532-22050-4	49 bags
50# box	6-74532-22059-7	40 boxes
